## EDUCATION

---

|   |                             |
|---|-----------------------------|
| <b>PhD Candidate - Scool (Inria) - University of Lille</b>  | Lille, FR                   |
| <i>Interests: Differential Privacy; Multi-armed bandits; Privacy auditing; Reinforcement learning</i> | <i>Oct. 2021 – Present</i>  |
| <b>ENS Paris Saclay: Master's Degree MVA</b>  | Gif-Sur-Yvette, FR          |
| <i>Master of Research in Mathematics, Computer Vision and Machine Learning</i>                        | <i>Sep. 2020 – Aug 2021</i> |
| <b>Ecole Polytechnique: French Engineering School</b>   | Palaiseau, FR               |
| <i>Major in Applied Mathematics and Computer Science, Minor in Physics</i>                            | <i>Aug. 2017 – Aug 2021</i> |
| <b>Moulay Youssef: Preparatory Classes in Science</b>   | Rabat, MA                   |
| <i>Undergraduate course in Sciences leading to the entrance to the French Grandes Écoles</i>          | <i>Sep. 2015 – May 2017</i> |

## PUBLICATIONS

---

- Achraf Azize**, Marc Jourdan, Aymen Al Marjani, and Debabrota Basu. On the complexity of differentially private best-arm identification with fixed confidence. NeurIPS, 2023.
- Achraf Azize** and Debabrota Basu. Concentrated differential privacy for bandits. IEEE SaTML, 2024.
- Achraf Azize** and Debabrota Basu, Rényi differentially private bandits. PPAI@AAAI, 2023.
- Achraf Azize** and Debabrota Basu. When privacy meets partial information: A refined analysis of differentially private bandits. NeurIPS, 2022.

## WORK EXPERIENCE

---

|  |                             |
|--|-----------------------------|
| <b>Teaching Assistant</b>  | Oct 2021 – Present          |
| <i>ENS Paris-Saclay, Ecole Centrale de Lille</i>   | <i>Lille, FR</i>            |
| <ul style="list-style-type: none"><li>Graphs in Machine Learning, ENS Paris-Saclay (MVA Masters), 2021-2022, 2022-2023 and 2023-2024, with Daniele Calandriello. Course <a href="#">link</a>.</li><li>Python Practicals, Ecole Centrale de Lille (SDIA Masters), 2022-2023, Course <a href="#">link</a>.</li></ul>   |                             |
| <b>Research Intern</b>   | April 2021 – September 2021 |
| <i>InstaDeep</i>   | <i>Paris, FR</i>            |
| <ul style="list-style-type: none"><li>Multi-Object Manipulation using Relational Reinforcement Learning and Graph Attention Networks</li><li>Achieved zero-shot generalization by successfully stacking objects into a previously unseen number of blocks and configurations</li></ul>   |                             |
| Report available <a href="#">here</a>  |                             |
| <b>Machine Learning Research Intern</b>  | April 2020 – August 2020    |
| <i>DataLab Groupe Crédit Agricole</i>  | <i>Paris, FR</i>            |
| <ul style="list-style-type: none"><li>Developed an Interpretability toolbox (Python), fully integrated into the DataLab's AutoML solution (MLBox)</li><li>Developed an end-to-end AutoDL Script, based on Microsoft NNI framework, that finds automatically the optimal neural architecture for a tabular dataset, within some search space, considering the time and computational budget</li></ul> |                             |
| Code and scripts available <a href="#">here</a> .  |                             |
| <b>Development Intern</b>  | June 2019 – August 2019     |
| <i>PerfectStay</i>   | <i>Paris, FR</i>            |
| <ul style="list-style-type: none"><li>Developed a new Script in Go, that reverse engineered with high accuracy (99%) the results of a Pricing Program (iVector) used by PerfectStay, in 4 times less time (from 12 hours to 3 hours)</li></ul>   |                             |

## AWARDS AND HONORS

---

French Government Major-Excellence Scholarship (Top seven in Morocco)  
Member of the Moroccan Mathematics Olympiad Team (Top 12)  
Ranked 2nd in the Concours National Commun (CNC)
